A WORD FROM THE BOARD

This Impact Report highlights FAWOI's activities and achievements for the year 2025, made possible by our volunteers, staff, and partners who continue to persevere amid numerous challenges confronting our region and sector.

2025 began on a rather rough note with funding cuts and dwindling resources in the humanitarian space. Though filled with many challenges that saw the decline in reach, we also found ways to stay sustainable and resilient in the face of the changing fortunes of times. The successes achieved were evidently a result of teamwork and local partnerships offering a surefooted grounding for our mission to uplift vulnerable families while empowering our communities through our programs and activities.

Faced by conflict and its aftermath, the tragic occurrences of continuous exploitation, insecurity and uncertainty in our regions of operations in the Northwest and Southwest regions of Cameroon further widens the gap of vulnerabilities for children, families and disadvantaged minorities. With deploring economic status, most families cannot afford the basic means for upkeep talk less of education, healthcare or protection from violence and harm.

It's in such a context that FAWOI has reached out to support these children and families through education, health, empowerment and protection. Despite our efforts, our work is far from over as feedback from the communities underpins the need to address, safety, dependency, enhance economic empowerment, and encourage self-reliance among beneficiaries.

Thanks to collaborations and shared resources with government agencies, civil society and partners like GIZ through CHRDA, DIBA HWC, CIACP, iRebuild Africa, ROBOGA, BEGARH, and MTS we are advancing our mission and services to the most vulnerable. Drawing from our respective strengths, shared vision, and resources, we are making progress. We heartily thank all our partners and supporters.

**Stephen A. Kube,
Secretary General - FAWOI**

FAWOI's Board is the governing body of the organization with a diverse set of committed and experienced leaders from civil society, private sector, government and academia, driving the mission of the organization who meet quarterly.

Vision

We envision a nourishing and nurturing environment for sustainability and autonomy of families, women and girls.

Mission

Build sustainable families and empowered communities through capacity building and horizon expansion to improve the quality of life of girls and women.

Focus

Health
Research
Education
Protection
Empowerment

Family World international (FAWOI) is a non-profit responding to humanitarian and development needs to advance the quality of life and livelihood of persons locally and internationally especially women and girls.

In Cameroon, FAWOI is a registered NGO with head office in Buea (Mile 17) and satellite offices in Kumba (SOWEFCU Building) and Bamenda (Mile 4).

Our Target Population

- HIV infected and affected children
- Adolescent and teenage mothers
- Survivors of violence and abuse
- Children of female sex workers
- Internally Displaced Persons
- Living in indecent habitats
- Persons with disabilities
- Substance abuse users
- Children born of war
- School drop-outs
- Other at risk

Core Values & Competencies

FAWOI's core values are **REDI**: Respect, Excellence, Diversity and Integrity

Competences (CCAT): Commitment, Continuous Learning, Accountability and Team Work

Managerial Competencies: Transformational leadership and Empowerment (Continuous development and growth)

Work Culture (BIMG)
Belonging, Independence, Mastery and Generosity

Commitment

FAWOI commits to provide relief, restore hope, & facilitate the sustainable recovery of the affected and infected towards sustainability & peace.

Aligned with FAWOI's mission to strengthen families and empower communities through integrated health, education, protection, and economic empowerment initiatives, FAWOI implemented 06 of its flagship programs, targeting vulnerable children and households affected by HIV, TB, Malaria, and other socio-economic challenges across its districts of operation in Cameroon.

As such, FAWOI's interventions in 2025 sought to address the evolving needs of displaced families affected by gender-based violence (GBV), poor access to health services, limited education, and economic instability, through holistic service provision, stakeholder engagement, and community-led approaches.

These interventions saw Social Service Workers developing tailored case plans for 165 newly enrolled households with 24 case plans updated designed to meet the unique household needs through comprehensive assessments, goal setting, and collaborative planning. Of this, we had 15 children living with HIV (ages 0–17), 04 exposed infants, 08 GBV survivors, and 35 siblings. These households represent diverse backgrounds and challenges across FAWOI's operational districts.

Supervisory Home Visit to Kumba Health District Program Staff

Critical health services were provided, including antenatal care (ANC) for 06 women. Additionally, 50 teenage mothers were supported with supplies and nutritional packs and across the HIV/AIDS, Malaria, and Non-Communicable Disease (NCD) programs, including, awareness sessions on WASH, menstrual hygiene, GBV, malaria prevention, HIV, syphilis, and hepatitis B.

Staff conducted routine home visits and trauma healing sessions to ensure follow-up care and continuous support for enrolled households.

To ensure participant sustainability, we conducted supervisory visits and assessment. Of these, 28 cases were closed, while 15 successfully graduated, totaling 43 cases to show that these households and individuals can fend for themselves and support their livelihood and upkeep.

Community HIV Testing, Hepatitis, Syphilis, Malaria awareness and prevention services – Idenau, Southwest Region, Cameroon

Community Testing and Vaccination Campaign in Tiko Health District

We had vocational training graduation held on April 27, 2025 empowering women and youth in trades such as hairdressing, cookery, ICT, and food processing, in collaboration with Bamenda Handicraft Center for one-month training in nine trades, and partnerships with MINPROFF and Vocational Training Associations to expand opportunities. The outcome of this led to job creation, entrepreneurship support, and sustainable livelihoods.

FAWOI also engaged 45 key stakeholders, including 17 quarter heads and 31 community health workers, delegates, regional authorities, and security to foster collaboration and expand project access and reach in local communities. These partnerships strengthened ties with the locals, health facilities, and offices, and enhanced program delivery.

PROJECT ACTIVITIES

Human and Environmental Protection Capacity Building – Holiday Cohort Program for Kids

Menstrual Hygiene and Health Day Campaigns with Partners at Molyko Integrated Health Centre,

Impactitude Leadership Workshop with ROBOGA at MBOA Hub Head Office – Yaoundé,

Teen Mom Support Project, Partnership with iRebuild Africa – Leboudi, Nkolbisson, Yaoundé

STAKEHOLDER ACTIVITIES

Regional Health Coordination Meeting, May 14, 2025 – SWRDPH Conference Hall, Buea

Drug Abuse Training & Digital Security Sessions with CARITAS and ASOV

FHI 360 Pre-Award Assessment Visit, October 18, 2025 – FAWOI Head Office, Buea

Policy Brief and Paper Writing Workshop with WAIH - August 2025, Mbalmeng, Yaoundé

TRAININGS

Impact on Administrative and Financial Compliance – 10 Leaders trained by LUKMEF

GBV Case Management – 30 CSO leaders trained by GBV Justice Alliance, MINPROFF, LUKMEF

Disability-Inclusive Humanitarian Action Training - 40 CSO Leaders trained by CBM & PCC HS

Mental Health & Psychosocial Support Service Workshop - 35 CSO trained by FOMCAM & UNFPA

Success Stories

- Viral load and PCR tests and collections of final results were successfully conducted.
- Disability-inclusive programs and policies were developed.
- Households were enrolled and case plans implemented exceeding projected targets.
- All GBV cases were successfully followed up and provided post-violence care, psychosocial support and trauma healing therapy sessions. One of the participants now reports improved health and well-being.
- Successful programs outcomes and impact resulting from partnerships and shared internal resource mobilization.

Challenges

- Poor network connectivity hindered effective communication.
- Restricted movement due to lockdown measures limited outreach and service delivery.
- Educational barriers persisted, with inadequate access to quality schooling.
- High levels of unemployment and underemployment continued to affect families.
- Limited access to healthcare services remained a pressing concern.
- Crime and safety issues created an environment of fear and insecurity.
- Widespread poverty restricted access to financial resources and limited knowledge of income-generating opportunities.
- Food insecurity left some families unable to meet their nutritional needs.

- Many files at treatment centres lacked updated caregiver addresses and contact details, making case identification of potential beneficiaries difficult.
- Medical care services remained prohibitively expensive for vulnerable households.

Recommendations

- Strengthen collaboration with local agencies and community partners to improve service delivery.
- Prioritise mental health and emotional well-being across all interventions.
- Conduct regular progress assessments and adapt strategies accordingly.
- Reinvest in quality public education, including early childhood programmes, after-school initiatives, and mentorship opportunities.
- Improve access to healthcare through education, prevention programmes, and community outreach.
- Encourage continuous practice and development of communication skills among staff and participants.
- Implement policies and programmes that promote economic opportunities, including job training and skills development.
- Continue building strong community connections to foster resilience and support networks.
- Advocate for accessible and affordable healthcare services.
- Expand food assistance initiatives in partnership with community organisations.
- Optimise health-related activities to ensure efficiency and impact.

I started work with FAWOI in April 2024 and in 9 months, I had built skills in financial reporting, designing of policy documentation, attention to detail, effective communication, reporting and documentation, confidentiality and cash management to name a few. Before FAWOI, I had a timid understanding of finance, but I have indeed learnt so much that I think I can be able to work with less supervision and my direct supervisor has also done everything under her capacity to build me up into the person I am today. The restore project has paved way for my finance career and a little effort and concentration.

Beside working in the Finance department, I have also had the opportunity do supervisory home visits and assessment of families. These families have been benefiting from the RESTORE project for over two (2) years based on the state of their vulnerability. I also visited other households to provide them with their basic needs and nutrition support. This exercise brought so much happiness to these families and fulfilment for me seeing how our work touches lives. They kept on blessing the organization (FAWOI) and thanking the officers for all the support they have been receiving from the organization all thanks to the RESTORE project.

Ngum Vanissa

*Finance & Compliance Officer /
MHPSS Focal Point*

As a staff member of FAWOI, 2025 has been a transformative year both professionally and personally. The organization's relentless efforts in addressing critical community needs have not only empowered me but also fostered significant growth and

resilience within the community. Personally, working on impactful projects such as providing care for orphans and vulnerable children, and addressing the stigma associated with HIV has enhanced my professional skills and deepened my understanding of humanitarian work. Engaging directly with individuals and families has refined my ability to empathize and offer solutions tailored to their unique challenges.

For the community, FAWOI's activities have been life-changing. Health care thematic interventions have improved healthcare access, reducing morbidity and mortality in a region where health facilities are scarce. Our support for orphans, vulnerable children, and teenage moms has provided a safety net for some of the most marginalized individuals, restoring hope and dignity to their lives. Furthermore, the stigma reduction programs for people living with HIV in Fako have fostered inclusivity and acceptance, improving their mental and physical well-being.

On a broader scale, the lack of FAWOI's presence would leave a void in community health, development and empowerment efforts, eroding trust and progress. As a staff member, it would mean losing a platform to make a meaningful difference and further develop my skills, leaving me less equipped to contribute to similar efforts in the future.

FAWOI is not just an organization; it is a lifeline for countless individuals and families. Its absence would echo as a profound loss, underscoring the critical importance of sustaining its impactful work.

Tankoh Marceline

Chief Strategy Officer

FINANCIAL POSITION

FAWOI's income sources include; member contributions, donations, fund raisings, service fees, interests, and disposal of assets. These income sources including pledges (receivables) makes up the bulk of what funds our activities.

FINANCIAL POSITION

AUDIT NOTE

FAWOI's fiscal year runs from January to December. The 2025 budget was prepared using the activity and project baselines, while also projecting additional resources expected through donor proposals and cost-sharing agreements. As of July 31, 2025, FAWOI has accrued XAF 24,554,366 in revenue and executed XAF 19,140,213 in expenditures, resulting in a surplus of XAF 5,284,317 for the period. All prior liabilities have been fully settled, and as of July 31, 2025, FAWOI carries no outstanding liabilities.

The PPE balance has been updated to XAF 7,370,101 based on the verified asset log, reflecting additions of XAF 4,976,601 and revaluations/adjustments of XAF 538,500. Disposals have been treated as income in line with accounting policy, ensuring that non-current assets are accurately stated and reconciled.

The difference between the approved annual budget (XAF 101,327,526) and secured resources represents a funding gap of approximately XAF 76.8 million, which FAWOI is actively mobilizing through ongoing donor engagement and project pipelines. This disclosure ensures that only actual assets and liabilities are recognized in the Statement of Financial Position, while projected resources are presented as part of FAWOI's forward-looking programmatic and fundraising strategy.

Dr Ngang Paul Makwondoh
Auditor and Head of Audit Compliance Division
